“The Eastern Bride”

He was living in his own world—until he stepped into theirs. . .

Pete de Jaeger is a savvy, young, globetrotting South African business consultant. However, as a Christian, Pete is unaware of the pressure fellow Christians are under in the Middle East. He’s also unaware of the deception in China where the government *“appears”* to be open to Christianity. That is about to change. . . While on a business trip to the Middle East, Pete ends up in the midst of a family crisis. He is quickly awakened to the fact that Christians in both countries face real-life persecution for following the Lord, something Pete has not recognized. . . until now. This challenging and inspiring drama will open your eyes to the realities of life for Christians under pressure in the Middle East and China.
